UDOKA DANDAVE CHIBUZOR

aka "Dandy"

Software Engineer — Full Stack

hello@dandaveudoka.com.ng | +234 810 339 3608 | Enugu, Nigeria (Remote worldwide)
Portfolio: dandaveudoka.com.ng | GitHub: github.com/Davetechinnovation | LinkedIn: linkedin.com/in/udoka-dandave

SUMMARY

Results-driven Software Engineer with 4+ years of hands-on experience building scalable web applications and multi-platform systems, spanning responsive, high-performance frontends (React, Next.js, React Native), robust backends (Node.js, Laravel/PHP), and containerized deployments (Docker). Delivered real-world products across fintech, streaming, B2B automation, and enterprise dashboards. Strong code review, debugging, and testing habits; comfortable owning features end to end, from architecture to production.

EXPERIENCE

Software Developer (Contract) **Jan 2026 — Present**

Jointearn | Nigeria (Remote)

- Developed a cross-platform mobile crypto application for asset management and investments, integrating secure cryptographic protocols; sustained 99.9% uptime in concurrent-user load testing.
- Built a secure Laravel REST API handling wallet management, transaction history, and authentication; reduced database query response times to under 150ms through optimized indexing and caching.
- Designed the full mobile UI in React Native, applying native thread optimization and lazy loading to hold a 60 FPS baseline on both iOS and Android.
- Reviewed and debugged code across the stack; wrote unit tests and maintained API documentation for the backend services.
- Integrated OTP and Google Authenticator (TOTP) two-factor authentication into the mobile wallet app, strengthening account and transaction security.

Founder & Software Engineer (Solo) **Jun 2026 — Present**

Solvativ | Nigeria (Remote)

- Designed and engineered a multi-platform B2B ecosystem automating omni-channel messaging across WhatsApp, Instagram, Facebook, and TikTok.
- Cut automated customer response times from hours to under 60 seconds for businesses on the platform.
- Own the full stack: system architecture, API design, database schema, deployment, and iteration on early customer feedback.

Admin/ICT Manager (Part-time) **Sep 2025 — Present**

DanRaph Integrated Services | Nigeria

- Implemented ICT solutions that reduced technology costs by 20% annually.
- Streamlined office operations, boosting operational efficiency by 30%.
- Coordinated software upgrades, improving system performance by 25%; delivered projects on time and under budget.

Freelance Software Developer **2024 — 2025**

Transport & Logistics Company (client) | Nigeria (Remote)

- Delivered a commissioned operations dashboard for a transport company, consolidating sales tracking, driver and fleet monitoring, and reporting into a single interface.
- Gathered requirements directly from the client and translated day-to-day business operations into working software, iterating on feedback until handover.
- Built the full stack with React, REST APIs, and MySQL/MongoDB, with a focus on query performance and maintainable component architecture.

PROJECTS

PricePing — WhatsApp Trading Alert Bot **Node.js | Baileys | MongoDB**

- Built a WhatsApp-based trading alert bot that monitors 500+ assets and pushes real-time price alerts to subscribers, using the Baileys WhatsApp library with MongoDB for subscription and alert state.

Streaming Platform **2024 — 2025**

Full-stack project

- Built a video streaming web application with Next.js and Node.js, focusing on playback performance, content cataloging, and responsive UI across devices.

SKILLS

Frontend: React.js, Next.js, TypeScript, JavaScript (ES6+), Tailwind CSS, HTML5/CSS3, React Native, Expo

Backend: Node.js, Express.js, PHP, Laravel, TypeORM, REST APIs

Databases: MySQL, MongoDB, PostgreSQL, Redis

Payments: Paystack, Flutterwave, payment gateway & transaction flows

Tools & Practices: Git/GitHub, Docker, Unit Testing, Code Review, Debugging, Technical Writing, Agile

EDUCATION

Tech Academy — Full Stack Web Development Certificate **2022 — 2024**

Frontend, Backend, Databases & Deployment (part-time) | Anambra, Nigeria

- Structured full-stack programme covering React, Node.js, databases, APIs, and deployment practices.

PineCrest College — WASSCE (West African Senior School Certificate) **2024**

Nigeria
